Regional Training on Structured Commodity Trade Financing

Date: 26th - 28th July, 2017 | Venue: Pride Inn Paradize Mombasa, Kenya

Introduction

Structured Commodity Trade involves a process where trading partners (buyers and sellers) are linked through a process that ensures the quality, quantity and safety of the commodity whose origin is in a known warehouse and the delivery logistics is managed to address the counterparty risks of delivery and payment. The structures, risk mitigation and management processes therefore allow for the trade to be financed by a third party who is assured about the source, destination and eventual payment of the commodities.

The Eastern Africa Grain Institute (EAGI), the specialized training and capacity building division of the Eastern Africa Grain Council (EAGC) is pleased to invite you to a 3-day training of Structured Commodity Trade Financing training.

At the end of the training, you will have learnt:

• Trade Contracts & Dispute Resolution
• International & Regional Trade Policies
• International Commodity Trade & Terms
• International Commodity Trade opportunities
• Warehouse Receipt Systems Finance & Embedded Collateral Management
• Market Information Systems for International & Regional Trade
